

CERTIFICATE OF REGISTRATION

Information Security Management System
 ISO/IEC 27001:2013

StrongArm Technologies, Inc.

A-LIGN Compliance and Security, Inc. certifies that the organization operates an Information Security Management System that conforms to the requirements of ISO/IEC 27001:2013. The scope and boundaries of the ISMS is as follows:

The Information Security Management System is applicable to IT Operations related to: developing, marketing, selling, promoting, supporting, and designing the SafeWork System, which includes the FUSE Platform, Flex sensors, and SafeWork Dashboard. The boundaries of the Information Security Management System are the locations of any data systems (i.e. data centers under StrongArm Technologies' control), authorized mobile workers and the endpoints of the organizational network. Assets within the scope of the ISMS include customer data, software, people and internal information assets to operate the SafeWork System, in accordance with StrongArm Technologies' Statement of Applicability (SOA).

Excluded from Scope: As an all remote company, there are no physical office locations in the scope of the ISMS. All third party data center operations and physical hardware assets managed by the third party service provider.
